

CORPORATE OVERVIEW

Adamo Security Group has been in business since 1962 and has focused on classified program space and high-security facilities since the early 1980s. The team at Adamo has more than a century of combined expertise in design, construction, modular fabrication and installation of high-security facilities. For the last 35 years, Adamo has specialized in federal, military and commercial markets.

Adamo is positioned as a single source of service, providing an integrated approach, combining education, consulting, design, construction, and modular products and services for our various clients. This integrated approach assists in meeting both the current and future needs of our clients, from small business to large government entities.

PAST PERFORMANCE

Adamo has designed, built and consulted on more than 1,000 SCIF and SAPF projects worldwide. All have met their accreditation requirements. Previous clients include:

- U.S. Navy
- U.S. Air Force
- NASA
- SPAWAR
- NAVFAC
- Multiple defense contractors
(Private company names kept confidential)

SPECIALIZATION STATEMENT

Adamo specializes in the consultation and the design, specification, installation and construction/fabrication of Closed Areas, Sensitive Compartmented Information Facilities (SCIF) and Special Access Program Facilities (SAPF) throughout the United States and abroad.
